Faribault Area Community Solar Gardens

1st of their kind - Value of Solar -

These community solar gardens are a part of the first group of projects in the nation to be constructed under a utility rate program that is not ratepayer subsidized.

The Minnesota Value of Solar rate program provides savings to subscribers without impacting other rate payers, ushering in a new era of clean energy deployment.

Energy Bill

About Nokomis Partners:

Nokomis Partners is a Minnesota based energy developer whose mission is to accelerate clean energy deployment through equitable partnerships.

Through a combination of development and consulting services we use distributed energy to accelerate the deployment of clean, local energy. Our approach is predicated on creating value for all stakeholders involved.

Garden Subscribers:

► Contact us at connect@nokomis.partners and let's start accelerating local energy adoption.
